InquisIT

TRANSFORMING
THE BUSINESS OF
GOVERNMENT

Modernization
Digital Transformation
Enhanced Cybersecurity

InquisIT has served the public sector for nearly two decades, delivering innovative, efficient and cost-competitive technology services and solutions.

At InquisIT, it is our high energy, hyper-focused and forward thinking team that allow us to deliver you smart, innovative technology solutions.

InquisIT "Disrupts the Norm" by raising the bar and creating a new standard in federal contracting, one where we are inspired by your mission critical challenges.

We drive business efficiencies, improve mission outcomes and leverage commercial best practices to benefit federal agencies.

CAPABILITIES

IT MODERNIZATION
IMPROVING MISSION FUNCTIONALITY USING DATA DRIVEN, MOBILE, REMOTE READY SOLUTIONS WITH A FOCUS ON AUTOMATION

- Automation & Orchestration
- Identity and Access Management
- Containerization & Microservices
- Zero Trust
- DevSecOps

CLOUD ARCHITECTURE & MIGRATION
MIGRATING MISSION WORKLOADS WITH VENDOR AGNOSTIC, SECURE SOLUTIONS THAT PROVIDE ELASTICITY

- Cloud Smart Architecture
- Hybrid Multi-Cloud Solutions
- Cloud Migration Management
- Cloud Security
- Operations & Maintenance

INFRASTRCTURE OPERATIONS SUPPORT
ENHANCING MISSION ABILITY WITH A SHIFT LEFT APPROACH FOCUSED ON CUSTOMER EXPERIENCE & CONTINUOUS IMPROVEMENT

- Desktop & Field Support
- Customer & User Training
- Mobile & IT Service Management
- Data Center & Network Modernization
- User Experience IT Service Management
- Hybrid Environment Migration & Support
- Digital Workplace Support
- Application Modernization
- IT Center Help Desk Support
- Modernization & Enhancements
- DevSecOps Process Implementation

NETWORK & SYSTEMS ENGINEERING
SUPPORTING MISSION SERVICES WITH FUTURE-FORWARD SOULTIONS THAT FOCUS ON INTEGRATION AND PUT YOUR NEEDS FIRST

- Data Networks & Infrastructure Integration
- Performance Monitoring & Optimization
- Integration & Interoperability Support
- Multi-Platform & Cross-Integration
- Integration, Test, & Implementation
- Acquisition Process Integration
- System Design & Engineering
- Requirements Analysis

APPLICATION SUPPORT
BUILDING MISSION VALUE BY USING INFRASTRUCTURE-AS-CODE, STREAMLINING DEPLOYMENT AND INTEGRATING SECURITY

- Agile Development & Software Maintenance
- Data Management & Artificial Intelligence
- Data Warehousing & Business Intelligence
- Data Analytics, Visualization, & Modeling
- Application Development & Automation
- Software Security & Code Validation
- Mobile Application Development
- Big Data and Predictive Analytics
- Agile in DevSecOps Consulting
- Human-Centered Design

ZERO TRUST: CYBERSECURITY, IDENTITY & GOVERNANCE
PROTECTING MISSION ASSETS WITH OPERATIONALLY FOCUSED AND RISK-ORIENTED EXPERTISE

> Policy Creation 〉 Gap Analysis 〉 Evaluation 〉 Recommendations 〉 Implementation

- Ready to Comply with "Executive Order on Improving the Nation's Cybersecurity"
- Supply Chain Risk Management
- Network Architecture (Including TIC 3.0)
- Gap Analysis on MFA Adoption
- Endpoint Visibility & Security
- On-Premises, Hybrid, & Multi-Cloud Security
- Data Encryption at Rest and In Transit
